## Annual Calendar of the Curriculum

The annual calendar is organised from October  $1^{st}$  to September  $30^{sh}$  of each year. During the year, the following holidays from learning activities, both at the classroom and at the clinical training level, are provided.

**Christmas Holidays** = from December 21<sup>st</sup> to January 7<sup>th</sup> **Easter Holidays** = from Holy Thursday to Tuesday **Summer Holidays** = from 1st to 31st August During national holidays (April 25<sup>th</sup>, May<sup>st</sup>, June 2<sup>nd</sup>, July 12<sup>th</sup>, September 8<sup>th</sup>, November 1<sup>st</sup>, and December 8<sup>th</sup>) students may attend the training placement but only with the clinical tutor as the presence of the university tutor is not guaranteed.

#### **Clinical training opportunities for Erasmus students**

The organisation of training activities for Erasmus students may take place - both in Udine and Pordenone provinces, in the following health care settings:

**Azienda Sanitaria Universitaria Friuli Centrale** – which includes Udine Academic Hospital accreditated by Joint Commission International, that offering clinical placements in:

General Surgery, Orthopaedic Ward, General Medicine and Pneumological Ward, Intensive Care Unit, Intensive Coronary Unit and Cardiology, Casualty & Emergency Unit, Paediatric, Neuroscience department, Haematology - Oncology Units. Furhermore it includes Priamry Care and Mental Health Department. (mental health only for student Italian speacking)

**Aziende Sanitaria Friuli Occidentale** - which includes Hospitals and Primary Care. settings It is possible to offeraclinical practice in Community Care, and Mental Health, (Mental Helath only for student Italian speacking), In **Pordenone Hospital** the following clinical placements are offered: Surgery and Orthopaedic Unit, Intensive Care Unit, Post Operative Intensive Unit, Emergency Department Unit,.

**IRCCS Centro di Riferimento Oncologico di Aviano** - Oncological Research Hospital, which offers the following clinical placements: Oncological ward and oncology Surgery, Palliative Oncological Care Centre – Hospice "Via di Natale" Aviano.

In all clinical training settings, the Erasmus student is under the supervision of a clinical tutor who works with the university tutor in order to assure the best clinical learning experience.

In order to achieve progressively all established learning aims, periodic briefing and debriefing sessions are offered – before, during and after each clinical placement - with both the university and the clinical tutor. For those Erasmus students speaking only English, a clinical tutor capable of speaking in English is available.

Based on the Bilateral Agreements between the University and the above-mentioned Clinical Trusts, aiming to ensure a variety of effective learning opportunities, we recommend considering the Fall semester. During Spring, the clinical placements opportunities are limited due to the contemporary presence in the clinical settings of local nursing students and other health-care students.

## Admission process and contact

For those incoming students who are interested, the following steps are recommended in designing and implementing the Erasmus project.

The International Students Service (ISS), which guarantees administrative procedures for the start and close of the Erasmus+ programme. All incoming students must be formally nominated by their Home University. The Home University will send the nomination letter by e-mail to iss@uniud.it **before May 15**<sup>th</sup> (Fall term) and **September 30**<sup>th</sup> (Spring term).

See more detail at: http://www.uniud.it/en/uniud-international/ incoming-exchange-students

The ISS will guide incoming participants in finding accommodation – in Udine or Pordenone, according to the requirements of the Erasmus Charter for Higher Education. Information and assistance can be provided by the following persons and information sources: http://www.uniud.it/en/uniud-international/incoming-exchangestudents/pre-arrival-information/accommodation-in-udine The Academic Erasmus coordinators of the NBDC who have responsibility for the clinical training plan for incoming and outgoing students.

Academic Erasmus Coordinator contacts:

- Cristina Tommasini, MNS, BNS, RN-

#### cristina.tommasini@uniud.it

- Renzo Moreale, MNS, BNS, RN -

#### renzo.moreale@uniud.it

In order to be admitted to the clinical settings, students must present their **Health Certificate for working purpose** signed by own Institution/General Practitioner, including the following tests: Liver function enzymes (AST, ALT, GPT), total and fracionated bilirubin, serum glucose test, renal function test (serum creatinine) blood count cells (white and red cells, platelets, haemoglobin, ...), routine urine test, Screening tests for antibody to HCV, HBsAg, HBsAb, HIV (within the last 3 months), Tuberculosis test (Mantoux or IGRA in the within the last 12 months), health certificate for work purposes. It is also necessary to have done the following mandatory vaccinations: Hepatitis B, Measles, Mumps & Rubella and Varicella. Given the pandemic period, it may be necessary to perform the molecular swab and perform further tests and certificates.

Certification is also required regarding knowledge/skills achieved of Individual Protection Devices (IPD) – for the examinations taken with regard to safety issues in the work/learning environments, as well as any certification obtained regarding fire response skills, ergonomic precautions for safe patient mobilization, Basic Life Support and Defibrillation skills.

#### **Further opportunities**

Welcome and Guidance are offered to incoming students by the International Nursing Student Group. In Udine and Pordenone, there is a buddy student service, providing support for the socialisation process.

Students may also take part in a summer course of Italian Language for students from every part of the world.

# **Nursing Bachelor Degree Course**

The Nursing Bachelor Degree Course (NBDC) is affiliated with the Medical Department of Udine University. Please visit: http://www.uniud.it/en/education/offer/courses/medical-area/ medicine/bachelor-degree-courses-undergraduate-180-ects/ nursing?set\_language=en

# The Degree programme is organised between two campuses:

Udine: Viale Ungheria, 20 - 33100 Udine (Italy) Tel. + 39 0432 590911

Pordenone: Via Prasecco, 3 A - 33170 Pordenone (Italy) Tel. + 39 0434 239480

## The Dean of the Nursing Bachelor Degree Course is Alvisa Palese Associate Professor of Nursing Science Tel. + 39 0432 590926 alvisa.palese@uniud.it

The person responsible for the clinical training programme and coordination are:

Illarj Achil, MNS, BNS, RN (Udine Campus) Illarj.achil@uniud.it Tel. + 39 0432 590915

Cristina Tommasini, MNS, BNS, RN (Pordenone Campus) cristina.tommasini@uniud.it Tel. + 39 0434 239482

The Erasmus Delegates are: Cristina Tommasini, MNS, BNS, RN cristina.tommasini@uniud.it Tel. + 39 0434 239482 Skype: sinitomma

## Renzo Moreale, MNS, BNS, RN

renzo.moreale@uniud.it Tel. +39 0432 590934 Skype: Renzo Moreale

## **Brief Course Presentation**

The Nursing Curriculum, which lasts three years, is based on the principles of the Bologna Declaration and a national set of rules, providing 180 University Educational Credits (Crediti Formativi Universitari, CFU), of which 60 are dedicated to clinical training.

The learning objectives are inspired by the Dublin descriptors and provide the application of knowledge and problem understanding within the nursing domain, independent decisionmaking, communicating abilities and independent learning. The Nursing Curriculum includes: General and Clinical Nursing,

Biomedical and Human Sciences focused on the individual, to the family, to the community of all ages among different health conditions, as indicated in **Table I**.

**Clinical training** is offered by the hospitals and community health care services within Udine and Pordenone provinces. The clinical training experience is inspired by the experiential learning model defined by White & Evan (1991, Figure 1), facilitated by University and Clinical Tutors (mentors).

**University tutors** are registered nurses with advanced education, usually at the Masters Level, who provide full-time tutorship functions: they assure individual and group-based tutorship during clinical placement, offering briefing and debriefing sections, developing, implementing and evaluating overall the clinical learning experiences of the students; they also offer individual tutorship for students requiring specific support.

**Clinical tutors** are expert registered clinical nurses, with at least two years of clinical experience in a specific field, who are responsible for the students' clinical learning process; they assure the quality of the safety care provided by the students towards patients. Clinical Tutors ensure consistent clinical training in accordance with programmed learning aims, organise and monitor the progress of the educational strategy.
